Presentation Outline

1. Brief update on environmental mitigation and CCS
2. Coordination chart for EPPM
3. Attendance at EPPM programmes
3. Knowledge Sharing by EPPM participants
4. Country expertise for capacity building

Presentation Outline

1. Brief update on environmental mitigation and CCS
2. Coordination chart for EPPM
3. Attendance at EPPM programmes
3. Knowledge Sharing by EPPM participants
4. Country expertise for capacity building

Environmental mitigation and CCS

Environmental mitigation:

1. Reduction of venting and flaring and converting them to gas sales projects
2. Enhance energy efficiency by maintaining equipment uptime

Carbon Capture and Storage:

1. Assessment on suitability of selected reservoirs for potential CCS
2. Economic assessment of potential CCS projects

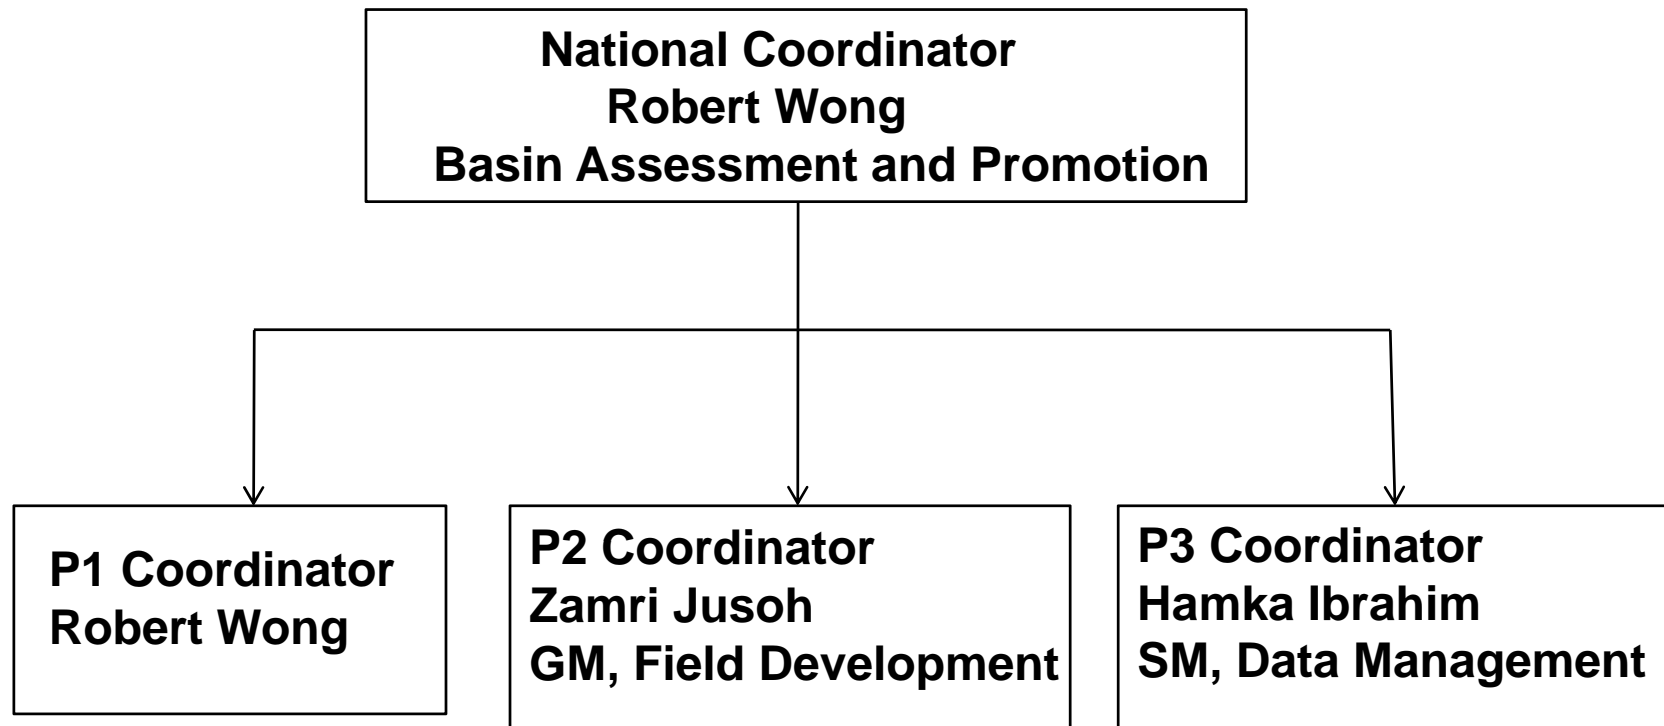

Presentation Outline

1. Brief update on environmental mitigation and CCS
2. Coordination chart for EPPM
3. Attendance at EPPM programmes
3. Knowledge Sharing by EPPM participants
4. Country expertise for capacity building

Coordination chart for EPPM

P1: Petroleum resource management with focus on natural gas

P2: Natural gas field development and environmental issues

P3: Metadata on natural gas resources of the CCOP region

Responsibilities of project coordinators

- 1. Liaise with National Coordinator on P2 and P3 projects**
- 2. In charge of respective working and expert groups**
- 3. Nominate candidates for CCOP-sponsored workshops**
- 4. Compile and document all reports for CCOP**
- 5. Present topical papers at specific seminars/workshops**
- 6. Present lessons learnt at dissemination seminars**
- 7. Produce annual and final reports for CCOP**

Presentation Outline

1. Brief update on environmental mitigation and CCS
2. Coordination chart for EPPM
3. Attendance at EPPM programmes
3. Knowledge Sharing by EPPM participants
4. Country expertise for capacity building

Attendance at EPPM Programme

EPPM Programme	Date	Attendance	Remark
Launching S1	9-10 Oct 08	2	Attended by National Coordinator
P2W1	17-20 Mar 09	4	CCS workshop held in Bali, Indonesia
P3W1	1-3 Apr 09	2	Metadata workshop held in Shanghai, China
P1W1	12-14 May 09	2	Cross-border basin study, held in Krabi, Thailand
P2W2	15-18 Sept 09	1	Held in Chengdu, China during the Fasting Month
P3W2	7-9 Oct 09	0	Held in Davao City, Philippines. Last minute cancellation.
S2	16-17 Nov	4	Attended by PETRONAS, UM and UTP

Presentation Outline

1. Brief update on environmental mitigation and CCS
2. Coordination chart for EPPM
3. Attendance at EPPM programmes
3. Knowledge Sharing by EPPM participants
4. Country expertise for capacity building

Knowledge Sharing

Participants are required to share their knowledge with a written report according to the following format:

- 1. Workshop objective and agenda**
- 2. Participating member countries in this workshop**
- 3. Project background**
- 4. Participants and resource persons**
- 5. Project deliverables**
- 6. Summary of presentations of member countries**
- 7. Issues and challenges/lessons learnt**
- 8. Recommendations from member countries**

Presentation Outline

1. Brief update on environmental mitigation and CCS
2. Coordination chart for EPPM
3. Attendance at EPPM programmes
3. Knowledge Sharing by EPPM participants
4. Country expertise for capacity building

Country expertise for capacity building

Country expertise for EPPM programme:

P1: Gas resource assessment

Basin studies capability-

Sequence stratigraphic technique
to integrate well and seismic data
across the basin

P2: Field Development

Reservoir Characterisation-
Reservoir modelling

THANK YOU
