

## **CCOP – Norway EPPM Program 3<sup>rd</sup> Seminar**

11-12 November 2010, Bangkok, Thailand

This is the 3rd annual Seminar of the 4-year CCOP-Norway Program for Enhancing Public Petroleum Management for the CCOP Member Countries (EPPM). The Seminar aims to enhance the capabilities of the Member Countries on global climate change issues and the roles of geosciences & the upstream oil and gas industry to address the issues. A discussion on the future activities of the Program and ways forward after the EPPM Program is included in the agenda.

The Goal of EPPM is to create the highest possible value for society from petroleum resources in order to improve the quality of life of the people in the CCOP Member Countries.

The Objectives of the Programme are as follows:

- To enhance the capability and capacity of Member Countries in assessment of the undiscovered petroleum resources with focus on natural gas.
- To enhance the capacity and capability of Member Countries in natural gas development and clean development mechanism & environmental issues.
- To set up an easily accessible metadata on natural gas resources of the CCOP Countries for knowledge sharing & preservation on natural gas resource exploration, exploitation and environmental impact mitigation.

### **Expected Output from the Seminar:**

- a. Learning the impact of the EPPM Program, the technical activities, and ways to improve the current networking with an aim of improving the sharing of knowledge and resources to benefit the Member Countries
- b. Enhanced knowledge about GHG, global climate change & the role of geosciences to address the challenges
- c. A concept for the future CCOP program after EPPM with inputs from the Member Countries- according to their needs

### **Target Resource Persons and Participants:**

- a. Resources persons from CCOP and Norway will be invited
- b. Participants: EPPM Program national coordinators & working group leaders, management representatives & senior geoscientists from the oil and gas agencies of the Member Countries, experts from the National Oil Companies and representatives from geoscience research and academic institutions.

### **Date and venue:**

11-12 November 2009 in Bangkok, Thailand
